

Advanced personal data and Outlook® / Outlook Express®  
and Windows Mail synchronization software  
for mobile devices.

**Dmailer V7 allows you to easily and securely (AES 128-bit encryption) synchronize and backup all your personal data from several computers to any mobile device**

**Thanks to Dmailer V7 software loaded on your mobile device, access, edit and restore ALL your personal files (productivity documents, photos, audio and video files, etc.), computer settings (Internet Explorer and Firefox favorites, wallpaper) and Outlook®, Outlook Express or Windows Mail data (emails, attachments, folders, calendar, contacts, tasks, notes) from any windows PC.**

**You can even send and receive emails securely from your mobile device connected to any computer in a few clicks, even if Outlook®, Outlook Express or Windows Mail is not pre-installed on it.**

**And when you're back, Dmailer V7 synchronizes all of your changes back to your home or office computer as if you had never left.**

**Turn any PC into your own protected workspace with Dmailer V7 software loaded onto your mobile device!**

**Thanks to its unique capabilities, Dmailer V7 software revolutionizes personal productivity by turning any computer into your own – in the office, at home or at school, in an internet cafe and beyond. Dmailer V7 is now available at [www.dmailer.com](http://www.dmailer.com) in 8 languages (English, French, German, Italian, Spanish, Danish, Japanese, Traditional and Simplified Chinese).**

## Dmailer V7 Key Feature

### **With Dmailer V7, keep your personal information at your fingertips.**

Easy to use and always secure, Dmailer V7 synchronizes ALL your personal files (productivity documents, photos, audio and video files, etc.), computer settings (Internet Explorer and Firefox favorites, wallpaper) and Outlook®, Outlook Express® or Windows Mail data (emails, attachments, folders, calendar, contacts, tasks, notes) and let you access them from any windows PC wherever you go, even if Outlook®, Outlook Express® or Windows Mail is not pre-installed on it.

And when you're done, Dmailer V7 synchronizes all of your changes back to your home or work computer like you had never been gone...

Two-way file synchronization has never been easier!

### **With Dmailer V7, your data are always secure.**

Password protected to ensure high level security, ALL your personal data are 128-bit encrypted safely on your mobile device even if it gets lost or stolen. Your information is stored securely with password protection that allows you — and only you — to access your data stored on your mobile device.

Within Dmailer V7 interface, send (SMTP) and receive (POP) emails - with or without attachments - securely from any computer as you would do from your own PC at home or in the office thanks to our embedded server

### **With Dmailer V7 leave no trace behind you.**

Dmailer V7 leaves absolutely NO files behind, keeping your information secure, regardless of the system you're using.

Now you can use a public computer, a friend's computer or a colleague's computer without leaving behind any trace (cookies, temp & history files). With Dmailer V7 your personal files and Outlook®, Outlook® Express or Windows Mail data remain on your mobile device, and are not copied to the computers you visit.

***It's so simple, you would not believe it!***

## Dmailer V7

### At your fingertips in just 4 steps!

*Easy to set-up and to customize, Dmailer V7 simplifies the synchronization of your essential personal files and Outlook® data. Access and edit your Word documents, mp3, Excel spreadsheets, emails, attachments, calendar, contacts, notes, tasks, and your Internet favorites in a cybercafé, on a friend's laptop, or in a colleague's office.*

#### **Step 1** Plug your mobile device into your computer and start using Dmailer V7

1. Plug your mobile device into your home or office computer.
2. Open the "My computer" folder on your desktop.
3. Double-click on the Removable Disk letter that represents your mobile device;
4. Double click on Dmailer V7 application to start running Dmailer V7.

#### **Step 2** Synchronize your mobile device and your computer with Dmailer V7

1. Select your language and accept the EULA.
2. Create a password to protect your data (AES 128 bit encryption).
3. Select all the critical data you want to synchronize: Outlook, Outlook Express or Windows Mail data (emails, attachments, calendar, contacts, notes and tasks), personal files (productivity, media, archives etc...) and PC settings (wallpaper, IE or firefox favorites).

#### **Step 3** View and Edit your synchronized data from any computer (even if Outlook®/Outlook Express or Windows Mail is not loaded on it)

1. Plug your mobile device into any borrowed computer and launch Dmailer V7.
2. Enter your password and Dmailer V7 main interface opens up. Our user interface is very intuitive and easy to navigate.
3. Work on your synchronized data as you normally would (view, edit, erase, save etc.) from your own PC and even access to your Internet favorites! Personal productivity becomes easy with Dmailer V7.

#### **Step 4** Return your mobile device to your main computer and synchronize all your changes thanks to Dmailer V7 !

1. Plug again your mobile device into your main computer and launch Dmailer V7.
2. Enter your password and Dmailer V7 main interface opens up and automatically determines which files need to be synchronized. .
3. Sync starts automatically! You're done.

## **The Ideal Solution!**

### **Perfect for Mobile Professionals**

Dmailer V7 is the perfect solution for professionals on the move. Wherever you go you can make any computer your own. Synchronize ALL your personal files and Outlook/Outlook Express or Windows Mail data on your mobile device. Thanks to Dmailer V7 you can bring your documents, email, attachments, calendar, contacts, notes, tasks, and even Internet Explorer favorites with you, wherever you go. Just plug in your mobile device and edit your personal files and Outlook/Outlook Express data from any computer as it was your own.

Gain unparalleled productivity by having access to files and information whenever you need it. Dmailer V7 allows you to make changes to files, create new ones or organize your mailbox while on the road, then return to the office and synchronize those changes with your computer. With Dmailer V7, you always have the most current version of your documents, email and Internet favorites at your fingertips.

### **Perfect for Students.**

Dmailer V7 is ideally suited for students who don't always have access to the same computer when they need it. With synchronized documents, emails, attachments, calendar, contacts, notes, tasks, and even Firefox or Internet Explorer favorites, you can bring your personal computing environment with you, wherever you go. Whether you're working in the computer lab, a classroom, or at the library, you always have an easy access to the most current version of your personal files and Outlook/Outlook Express data or Windows Mail.

### **Perfect for Sales Professionals.**

Sales professionals can now carry all their personal files and Outlook/Outlook Express data in their pocket or purse and get going. Whether you are off to a meeting, a convention or at home to update tomorrow's presentation, Dmailer V7 provides full access to your documents and mailbox wherever you go. Leave your heavy laptop in the office or at home and keep your pertinent up-to-date information in the palm of your hand — all on mobile device.

Keep in touch with clients and prospects using Outlook/Outlook Express or Windows Mail emails attachments, calendar, contacts, notes, tasks, and even Internet Favorites from any computer wherever you go. Easily access and organize the most current version of your documents and presentations whenever you need them. Dmailer V7 reduces your dependency on any specific computer, and makes every computer your own.

## Dmailer V7 always let you be:

**Efficient** by synchronizing your critical data in seconds.

**Productive** by working from any PC anywhere in the world, as if it was your own.

**Secure** by keeping all your data encrypted and protected!

**Undetectable** by leaving no trace behind even if you work from a visiting PC.
